PERSONAL AND SOCIAL.

On Thursday the Sultan spent the day at the Boustan Palace where he received and presented to the High Commissioner who presented to His Highness Admiral Bally, in Command of His Majesty's Naval Forces in the Mediterranean and Red Sea.

Prince Youssef Kemal left Cairo on Thursday evening on a visit to his estates at Nag Hamadi in Upper Egypt.

Cardinal Bourne was entertained at lunch on Thursday by the African Fathers at Shoubra. In the afternoon he visited the girls' schools of the Bon Pasteur and of the African Mission and Franciscan orders. His Eminence visited the Freres School at Faggala yesterday morning and will visit the Jesuits' School to-day.

Abdel Khalek Sarwat Pasha, Minister of Justice, left Cairo on Thursday morning on a short visit to his estates at Abu Rebir.

Mrs. McKay, wife of Captian McKay, who, as announced yesterday, gave birth to a son on the 9th inst. at the 19th General Hospital, Alexandria, is the daughter of the Sudan Government Agent at Alexandria, Mr. F.J. Sears, and is well-known in musical circles both in Egypt and the Sudan for her excellent vocal accomplishments.

Mr. W.C.E. Smith has been appointed Agent and General Manager of the Egyptian Delta Light Railways Limited in succession to Mr. G.E. Lilley. This appointment takes effect from January 1.

Under the demobilisation order of industrial groups and pivotal men, the first detachment of about eighty men under Captain Phillips have left Khartoum for Kantara.

Miralai Russell Bey, Commandant Cairo City Police is taking a few days' rest and proceeded to the country near Mehalla El Koubra for change on Thursday morning.

Mr. and Mrs. Ross-Taylor left Cairo yesterday morning for Luxor where they will take a Government steamer and proceed as far as Assuan by river, returning to Cairo in about a week's time.

The committee of the Y.W.C.A. Bazaar recently held in Cairo wish us to say that the following firms were inadvertently omitted from the list of those who kindly gave contributions to the Bazaar: Messrs. Cicurel, Messrs. Sednaoui and "Cent Mille Articles" Stores.

ALEXANDRIA TRAMS.

(To the Editor of the Egyptian Gazette).

Sir,— I have read with interest the letters on the above subject, from time to time in your paper lately, and while agreeing cordially with "A Well-Satisfied Passenger," I am afraid I am not in accord with Mr. Hoyle. I may be rather stupid, but I cannot for the life of me see what he has to grumble about. It is true that the hamleh trams are at times very full, but it is usually possible to get a small foothold on even the most crowded. I admit it is rather annoying when one falls off, but in wartime we must take the rough with the smooth, mustn't we? It is true, of course, that the Mex trams are more luxuriously appointed than the Ramleh trams, but this is the only point on which I agree with both your correspondents. One thing which pleases me especially is that, owing to the courtesy of passengers on both lines, one never sees a lady standing while men are seated.

Yours, &c.,
Also Well Satisfied.

ANGLO-EGYPTIAN CUP.

1ST ROUND.

A.W. & S.P. ROUT THE OLD.

The A.W. & S.P. had a soft thing in the first round of the Anglo-Egyptian Cup competition. Their opponents were the Old F.C. and the game was played at the Stadium on Thursday afternoon. From the start it was obvious that the civilians had no chance of winning and the game was to a certain extent a fiasco owing to the great superiority of the Military. Matters were not improved by the unsportsmanlike attitude of several of the Old team who on realising how outclassed they were left the field so that towards the end of the game they only had about half their proper number of players. In each half the Military scored four goals and the total of eight could have been easily increased had they played cared to have exerted themselves. Only three men shaped at all well for the Old F.C. These were their right back, right half and inside right.

Final: - A.W. & S.P. 8, Old F.C. 0.

PURIFICATION OF ALEXANDRIA.

SOME QUESTIONS FOR MR. EEMAN.

(To the Editor of the Egyptian Gazette).

Sir,— I notice that Ramleh Street is again engaging the attention of the Municipality, the present suggestion being that the Commissioners should harry the landlords, so that they may harry the girls. To what end? To stop immorality? It will merely increase the depravity of each of the actors in the comedy—from the police downwards.

If Mr. Eeman wishes to study the grave evils in question I may refer him to pages 274-276 and 284 et seq. in 'The Task of Social Hygiene" by Havelock Ellis. In fact it would be well if all the Commissioners were to study that book before they talk upon the subject. The problems connected with the Social Evil are not so simple as some visionaries seem to imagine; and much damage has been done in the past by permitting visionaries to talk at large and to act at large without check from the saner elements of the community.

If Mr. Eeman clears Ramleh Street, where will the "demi-mondaines"—they are not, of course, demi-mondaines at all—go? If Mr. Eeman reconsiders he will see that their present position is quite the best that could be selected. They are far enough away from wholly residential districts. Their flats are unconspicuous, except to those who wish to visit them, since they are placed above shops. Will Mr. Eeman explain what would be gained by dispersing them though the town? Their greater ease of life would then be plainly apparent to their uninitiated neighbours and it would prove a constant source of temptation to other girls to share the monetary profits of their occupation.

In writing to the press I prefer anonymity. In this case, however, I sign my name in full. It is time that common-sense should show a little courage. Anyway I am making a start.

Yours, &c.,
E. Digby.

CAIRO AMUSEMENTS.

Organ Recital in Cairo.— A musical event of exceptional interest took place at St. Paul's Church, Cairo, on Thursday evening last, when Mr. Herbert Dawson, A.R.C.O., L.T.C.L., gave a recital on the grand organ, which has the reputation of being the finest in Egypt. It was fitting that such an admirable instrument should be performed upon by a musician of the calibre of Mr. Dawson, who is the organist of St. Michael's Church, Paternoster Row—famous among Londoners as being the burial place of Richard Whittington) and he was up till the outbreak of the war, one of Sir Frederick Bridge's assistants at Westminster Abbey. The church was very crowded, and the programme, which included selections from Bach, Mendelssohn, Gulmant, Wagner, Dvorak, Tschaikowsky, Elgar, and others, was listened to with wrapped attention throughout. Mr. Dawson's masterly technique was an outstanding feature of the recital, which was remarkable also for the accomplished manner in which the performer interpreted, with such unerring fidelity, so wide and diverse a range of schools. Two vocal numbers rendered by Mr. Geoffrey Jennings," whose fine tenor voice was heard to great advantage in his solos from the Messiah and Elijah. The organist and vocalist are both in the Royal Engineers and came down the line expressly for the occasion.

ALEXANDRIA AMUSEMENTS.

New Year Gathering at Gabbari (Church Army and the C.E.M.S.).- Pleasant indeed was the social gathering, arranged by the Church Army authorities and the Gabbari Branch of the Church of England Men's Society, held in the Durban Church Hut at the R.A.O.C. Base Depot at Gabbari on Thursday evening, January 9. A large number of members of the Gabbari Branches had the pleasure of welcoming members from the St. Mark's and Mustapha Branches, including the Rev. L.G.P. Fry (President of the Alexandria and District C.E.M.S. Federation). The proceedings commenced with a much appreciated "high tea," the arrangements for which were admirably made by Staff Sgt. Gunn, 2/Cpl. Simpson and Sgt. Jones. Capt. H. Parkhouse (President of the Gabbari Branch) occupied the chair, and at the end of the meal he rose to propose a hearty vote of thanks to the Church Army and to those who had catered for the tea, and also to welcome the visitors. His remarks were supported and enlarged upon by the Rev. S. Weaver, C.F., Chaplain of the Camp, who took the opportunity of wishing the company a very happy New Year. On behalf of the visitors the Rev. L.G.P. Fry acknowledged the welcome and thanked both speakers for their kind words. It was a great pleasure to be there. After the tables had been cleared a concert began. The programme was varied and good, and the promoter of the concert (Pte. W.D. Thring) and the artists were heartily thanked, an interval by the Rev. S. Weaver, who paid a tribute to the work that had been done by Mr. Montague Cox as the Church Army's representative in that part of Alexandria, particularly referring to the improvements that had been made in the Hut and helped to make it as cheery and comfortable as it was that night. Mr. Cox was going home to England, and would be leaving there very shortly, and they could regard that gathering as his send-off. Mr. Cox, in acknowledging the compliment, spoke of the tremendous assistance which had been given to the Church Army and himself, as regarded the running of the hut at Gabbari, by the members of the Church of England Men's Society. The enjoyable evening ended with light refreshments and the National Anthem.

Hotel San Stefano.—This fashionable hotel is open all the year round and always caters for the amusement of its visitors in the approved European manner. The latest attraction is a Grand Masked Ball and Rout with a Cotillon and Buffet Froid this evening. The entrance price is P.T. 60 for gentlemen and P.T. 30 for ladies. Requests for entrance cards should be made to the management, which alone has them on sale. They will be strictly personal.

WHAT DYSPEPTICS SHOULD EAT.

A PHYSICIAN'S ADVICE.

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well-fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like in moderate amount, taking immediately afterwards half a teaspoonful of *bisurated* magnesia in a little hot water. This will neutralise any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fulness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It is not a medicine, and has no direct action on the stomach; but by neutralising the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little *bisurated* magnesia from your chemist, eat what you want at your next meal, take some of the *bisurated* magnesia as directed above, and see if I'm not right."

The special correspondent of the Paris "Journal" sends a letter from Petrograd. He describes the state of things there as appalling. Thousands of beggars shiver on the footpaths, and every night many succumb to exposure and want. The hospitals are crowded with innumerable cases of insanity.

REVUE COMMERCIALE.

COTON

Alexandrie, le 10 Janvier 1919.

Les arrivages s'élèvent à 3.358.527 cantars. Dans les usines d'égrénage et en route on estime qu'il y a 800.000 cantars environ. La quantité de coton restante entre les mains des cultivateurs est légèrement moindre à ce chiffre de sorte que notre récolte ne dépassera vraisemblablement pas l'évaluation de 5 millions de cantars. Un des faits caractéristiques de la campagne actuelle est la rapidité avec laquelle notre recolte a été achetée par les négociants intermédiaires.

Si ces derniers n'ont pas réalisé leurs bénéfices habituels, la faute ne peut certainement pas être imputée à la Commission de Contrôle du Coton, car les négociants payaient parfois à l'Intérieur des prix dépassant la valeur de la marchandise, par suite d'une vive concurrence dans les achats. D'autre part, les maisons délégueés procédaient à Alexandrie à des achats d'une façon plus scientifique que par le passé et il est advenu que des affaires entreprises à l'Intérieur pât des négociants emballés et imprudents se soient résolues ici par de légères pertes. Quant aux cultivateurs, ils ont été favorisés par des prix sans précédent, grâce à la stabilité des cours officiels et à l'engouement des négociants qui leur offraient des conditions exceptionnelles.

Les cours de l'Américain ont sensiblement fléchi sur tous les marchés. Depuis la signature de l'armistice les cotons Américains ont reculé et il semble qu'ils ne se maintiendront que péniblement au niveau actuel.

Les exportations de la semaine s'élèvent à 17.817 balles contre 15.757 pour la période correspondante de l'année passée.

Les recettes sont de 183.418 cantars contre 142.814 pour la même époque en 1917.

Le stock est de 3.035.951 cantars contre 2.417.400 à pareille date l'année dernière.

Le marché de Manchester est plutôt déprimé par suite du manque de nouvelles affaires. Les filateurs japonsis et italiens semblent devoir gagner de nouveaux marchés au détriment des Industriels du Lancashire, qui avaient pour ainsi dire monopolisé l'industrie des cotonnades dans le monde.

Par suite du manque de place, une partie du coton acheté par la Commission de Contrôle du Coton a été entreposé dans les rues par les vendeurs. Or, ce coton étant offert, dans les bordereaux, comme assuré jusqu'à sa livraison, alors que le coton existant dans les rues ne pouvant être couvert par l'Assurance, la Commission informe que la réception du coton trouvé placé hors Chounah sera retardé indéfiniment.

GRAINES DE COTON.

Les exportations de la semaine s'élèvent à 62.877 ardebs contre 53.103 pour la période correspondante de l'année passée.

Les arrivages sont de 99.566 ardebs contre 91.405 pour la même époque en 1917.

Le stock est de 457.206 ardebs. La consommation locale a absorbé à ce jour 251.997 ardebs. Les exportations de tourteaux n'atteignent que 3.756 tonnes.

A l'occasion du jour de l'An Orthodoxe, le marché de Minet-el-Bassal sera fermé le Mardi 14 courant.

CHRONIQUE FINANCIERE.

Alexandrie, le 10 Janvier 1919.

Le ton est meilleur et une reprise se dessine sur un grand nombre de nos bonnes valeurs. On relève également une plus grande activité dans notre cortbeille.

L'Unifiée gagne £2 à £91 3/4, la National Bank 11/16 à £21 1/2., la Cassa di Sconto 4fr. 75 à fr.98 et l'action ordinaire de la Behera 13/16 à £13 5/16.

Le Comptoir progresse en outre de 1/8 à £1 3/8, l'action nouvelle de la Kom-Ombo de 3/16 à £5, la Société Foncière d'Egypte de 21/32 à £8 1/8, la dividende Trams d'Alexandrie de 9fr. à fr.175., l'ordinary Khedivieh de 3 schillings à 79/6, la Bonded Stores d'une demi livre à £11 1/2, et la Crown Brewery de 15fr. et de 20fr. à fr.480 et 425 l'action privilégiée et la dividende respectivement.

En retranche, la Banque d'Athènes fléchit de 50 centimes à fr.105 1/2, l'obligation du Crédit Foncier Egyptien cède de 1fr.75 à fr.417 et la 2e et 3e séries de 25 centimes à fr.309 1/2 et la 2e et 3e séries de 25 centimes à fr.309 1/2 et 286 1/2.

D'autre part, l'Agricultural faiblit de 1/32 à £6 11/16, la Nangovieh de 3/32 à £6 7/8, la Filature Nationale de 1/8 à £11 3/4 et la Gharbieh Lands de 3/16 à £2 5/16.

Enfin la Gabbari recupère 1/16 à 27/32, la Delta Light Railways 1/4 de livre à £7 1/2, la Sidi Salem Estates de 1/16 à £2 11/32 et l'Aboukir Land 6 pence à 23/9.

Les Presses Libres s'inscrivent £21, ex-coupon. Pendant le dernier exercice, cette Société a pressé 129.359 balles contre 156.182 Pendant précédente, soit 17.177 balles en faveur de cet exercice. Les bénéfices nets, après prélèvement de l'intérêt et de l'amortissement des obligations hypothécaires ont atteint L.E. 14.321 contre L.E.35.340 en 1916-17.

Le tot de la Presse de la rue dur ler Khedive étant en très mauvais état la Société s'est trouvé dans la nécessité de faire procéder à son entière réfection, moyennant une dépense de L.E.11.000 environ, qui a été en grande partie amortie.

Le Cotton Control Commission a confié cette année à la Société le pressage d'une partie de son coton.

Un dividende de 7 1/2 o/o soit P.T.146 1/2) a été distribué aux actions ordinaires et P.T.154 à chaque part de fondateur.

Une energique une forte hausse sur le rix qui passe de P.T.600 à P.T.900 par Darîba et sur le mais qui atteint P.T.200 et P.T.220 l'ardeb.

Le Gouvernement Egyptien entreprendra bientôt de nombreux travaux d'irrigation et de drainage qui permettront la mise en valeur de nouvelles terres et augmenteront ainsi la productivité du pays. Parmi les projets à mettre immédiatement à l'exécution figure la transformation du canal Nubarieh en canal Sefi, ce qui sera un véritable soulagement pour la région de l'Ouest Behera. Le Rayah Behera serait élargi et le lac Edku serait desséché, de facon à assainir la partie septentrionale du Behera. Il faut espérer que le prolongement du canal Nubarieh soit également entrepris, ce qui permettra la régénération d'une partie de la région du Mariout, si délaissée aujourd'hui.

Dans la Gharbieh, les projets sont d'une plus large envergure. Une partie du lac Borollos serait desséché, rendant ainsi possible l'assainissement de toutes les terres basses de cette province et comme conséquence la mise en culture de plus de 300.000 feddans. Deux grandes voies navigables seraient assurées entre le Caire-Baltim et le Caire-Fouaa, par l'élargissement du Bahr-Chibin et la transformation de l'ancien canal Bagourieh.
