PURIFICATION OF

ALEXANDRIA.

CONSEQUENCES OF UNRESTRICTED

VICE.

(TO THE EDITOR OF THE EGYPTIAN GAZETTE).

Sir, I have been following with the greatest interest the various views of your correspondents in the columns of the paper, and I am glad to see that you have published the results of a "Laissez Faire" policy in the city of Alexandria.

It is a pity that the results of this policy should be studied (Crisis phase) now that I have no connection with any Party Society or any other organization, for by the derision of the word it is that which contravenes our Established Law, which has been made by the common good and that is LAW, whether Moral Law, or Public Law, or any other Law.

In some cases that penalty falls upon himself, more often it falls upon others, the hardest case being that in which the penalty falls upon the children of the parents, for the children are the future of the country, and the children of the parents are the future of the country.

Now the future children of the country are the children of the parents, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

1. PHYSICALLY.

The statement I have to prove is that "Men's present immorality (physically) is a menace to the future of the country." I shall prove it inductively, that is by examining some specific instances of the present immorality of the country, and showing that the future of the country is a menace to the present immorality of the country.

First, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Second, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Third, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Fourth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Fifth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Sixth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Seventh, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Eighth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Ninth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Tenth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Eleventh, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Twelfth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Thirteenth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Fourteenth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Fifteenth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Sixteenth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Seventeenth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Eighteenth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Nineteenth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Twentieth, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Twenty-first, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Twenty-second, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Twenty-third, let us take the case of the children of the parents. The children of the parents are the future of the country, and the children of the parents are the future of the country. Let me mention three—Physically, Socially, and Spiritually.

Twenty-fourth, let us take the case of the children of the parents. The
