

PURE MILK PROBLEMS.

Referring to our article of last week, giving statistics of the loss of child life through ignorance—the city of this article of the innocent is not merely that it is looked upon as a normal state of things. If the baby dies of infantile diarrhoea, the weeping mother puts it down to a "disposition of providence" instead of to the real cause—contaminated milk. If the child grows up weakly and ailing, she thinks its "constitution is at fault," little realizing that the cause is exactly what she made it by the food she gave it in its infancy.

It is very clear that in Egypt especially, if that children's food should be pure, simple and nourishing. Because Nestlé's Milk fulfils these requirements it may be always recommended.

EGYPTIAN DELTA LIGHT RAILWAYS.

THE SHARES IN LONDON.

The City correspondent of the "Pall Mall Gazette," in the issue of that paper of November 11, remarks as follows:—In common with other Egyptian securities, the shares of the Delta Light Railways have improved lately. When the dividend of 3 1/2 per cent was announced on the Preference a few months ago, there was some disappointment, because the profit earned was equivalent to 2 per cent on the Preference, the ratio of expense being unusually low. That, however, was due to the fact that maintenance suffered, on account of the inability to obtain a sufficient quantity of materials during the war months.

Traffic receipts for the current year are encouraging, and it is hoped in the market that next time something nearer the full 5 1/2 per cent will be distributed. This does not mean, however, that the present prosperity of Egypt is likely to assist the Delta Light Railways in the immediate future. The fact has to be borne in mind that the Preference arrears still to be paid are equivalent to nearly 32 per cent. This consideration has a speculative bearing upon the position. The price of the Preference shares today is 8 1/2, a valuation which compared with 7 1/8 three months ago.

THE MEAT QUESTION.

HOUSEFISH.

The "Makassar" from the Cairo Governorate, has come to an agreement with a certain butcher to supply the public with meat. The agreement with both is fixed up the arrangement will be announced and measures will be taken for the prevention of dishonestness and in-genuity with it. We cannot quite understand the reason why the Governor is so anxious to encourage the use of housefish as food by the public, and so indifferent in regard to the taste of people in a country like this where one does not need much meat for food owing to the nature of the climate in spite of the fact that the use of housefish is not much spread in Europe and America. In our experience at the present time, and endeavor to encourage the use of housefish in the country, the Governor is doing a good deed.

THE NEW SYRIAN OFFICIALS.

The "Omnia" from the Egyptian Press Bureau recently published a list of the names of the new Syrian officials. The list is as follows:—The Governor of the province of Hama, Aleppo, Hama, and Latakia, under the present Governor, is likely to be the same. A RESULT OF THE PAPER SHORTAGE.

One consequence of the lack of paper in London is that old newspapers, dating from far back in the last century, are being brought to light for wrapping purposes. A correspondent of a London paper says:—The other evening a fish-monger, a man of proven resource, delivered to me his goods in a news sheet dated January 1845. It is a pleasant purchase nowadays that can bring back the days of peace for even a quarter of an hour, and a welcome change from the giant headlines of twentieth-century war to the solid Victorian paragraphs. Dickens is to be met everywhere, but with an excellent of defence against them, and a "gale" of the paper is not so much a disaster as it used to be; and the final result was stated above.
