THEFT OF PAPER MONEY.

Some days ago, about one thousand five hundred banknotes, of P.T. 5 value, were stolen from the Survey printing office at Giza. The Survey Department has not yet succeeded in arresting the thief, but has been inspecting the banknotes as a special new mark had been placed on the stolen money. It seems that the thief became afraid of the result of his action, and sent to the Department in question through the Post Office about one thousand P.T. 5 banknotes.

The Department received the money but failed to discover the sender nor from which bank the money had been sent. The police are now trying to discover these things. It happened that a labourer in the Survey Printing Office when he was walking one day found one of the stolen banknotes at a newspaper seller's, he asked the police to arrest him and an enquiry is still proceeding.
