RECENT LOCAL EVENTS.

The general public is somewhat amazed at the events which have taken place in Carpo during the last few days. There has inct seemed to be the slightest justification for a number of schoolboys and college students surrounding themselves with the riff-raft of the streets and disturbing the peace of the gay vity. peace of the gay city. Cairo while all over the red of the country the pursuit of peace, ploughing the land and swring the seed are engrossing man, woman and chill to the exclusion of all elbe. as was markedly the case on Monday as soon at he city was left behind. The answer is one that these who took part in the disturbance certainly could not give with residence of the country o inners estainly could not give with resimble junification, for the schoolboys could state no fresh grievation that affected them as scholars and the model do not know what they were out for except to take part it the general excitement and to get their share of what was going in the shape of body. This sort of thing; can happen anywhere. "Mob law is well known to wisit populosights and mob law is always put down with a very heavy hand for it the antifleties of all that ordered civilisation." In the shape of the state of onable justification, for the schoolboys ould state on fresh prievance that affected
