INFLUENZA v. WAR.

INFLUENZA v. WAR.

The ravages of the influenza epidemic it is stated, were 'far more deadly than those of the war. In the twelve weeks during which it was rampant the deaths caused by it in the United Kingdom were 90.000, and the world mortality is estimated at 6.000,000. These site forwards were 10.000, and the world mortality is estimated at 6.000,000. These site for the contract Kingdom is equivalent to annuanual death-rate of less than 1. percents of the population, whereas the 700,000 killed of the British forces is equal to an annual death-rate of death entry of 6.4 per cent of those on as calculated that the world mortality dost directly to the war is equal to an annual death-rate of over 4 per centific the fighting men, compared with a toll of approximately 0.4 per cent taken by influenza of the estimated population of the world. As the contract is a poor thing by the side of the twentieth-century weapons of warfars.

AMERICAN GIRL FOR PRINCE OF

Discussing a suggestion that the Prince of Wales should find wherein the United Wales should find wherein in the United State of Wales should find wherein the United State of the Wales while trying to draw first British and Universit together by maying an American printing the 2000,000 more women than men today in the British thousand Canadiar, Australian. South African, and other oversea girls who could quickly-learn to be efficient Queens and who have been provided by nature with farmore than the average Queen's good looks, moestate wife, be has a fairly wide choice within the Empire. Our griss would not take too kindly to an American Queen at a time when three are so few vacancies on throuse worth while.

The 'Youccide Zeitmen' '(Berlin) learn

The "Vossische Zeitung" (Berlin) learne from Essen that, according to the Berlin correspondent of the "Handeless 100,000 tons of shipbuilding material to Holland at prices considerably lower than, was prices, but nevertheless higher than the prices now current in Germany.
