LIFE IN BERLIN.

WHOLE PEOPLE SEARCHING FOR FOOD.

A business may who has just arrived in Switzerland from Berlin has given to a setting facts regarding life in the German capital to-slay.

He says that the most striking thing in Germany is the disorganisation of the railways. Germany has even had to take pressing military needs.

In Berlin the spectacle of the whole population searning for food is very re-markable. In the restaurants a simple lunch for three person cost 160 marks, marks. The excitement of military vie-tries jet the only thing that stokains Ger-many: the people are convinced that the are will only last a few weeks mere, and tories is the only thing that sustains Ge many: the people are convinced that the war will only last a few weeks more, an this is the only thing that comforts then. The traveller asserted that the power of Germany has possed its zenith, and the decline will be rapid.
